

FT-30M waterproof exterior mounting enclosure

product description

The waterproof hinged clear lid enclosure allows access to the functions of the FT-30M indicator. It comprises an IP66 lockable enclosure with hinged clear lid, rear flanged mounts, a panel mount face plate and screws. Installers are required drill cable entries and fit cable-connectors to suit the application.

key features

- Hinged lid rated at IP66
- Screwed lid rated at IP68
- Polycarbonate box & clear lid
- Stainless steel, lockable latch
